

Electricity Facts

<i>Electricity sources</i>	<i>Ontario's Electricity Mix</i>
Nuclear Energy	58.4%
Water Power	23.9%
Natural Gas*	6.2%
Wind	8.0%
Solar PV	2.3%
Bioenergy**	0.5%
Non-Contracted***	0.8%

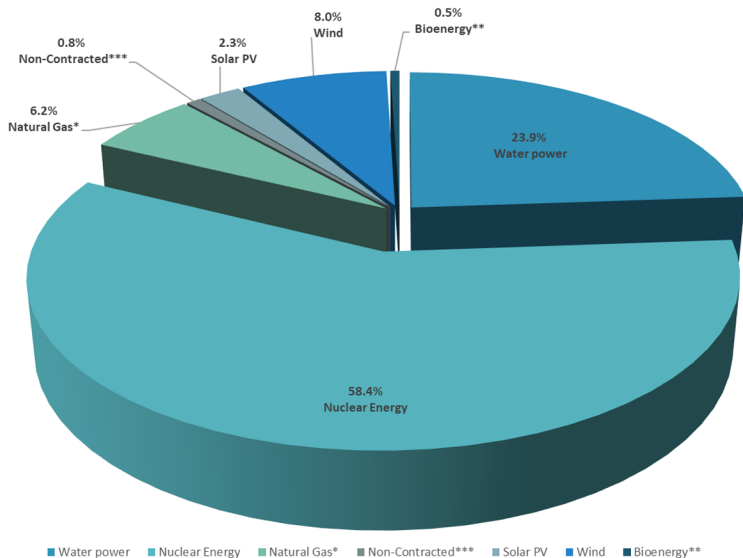

* Includes Lennox, dual fuel (ng/bio) consistent with IESO.

** IESO's embedded generation data set merges biomass and gas.

*** Non-Contracted represents a variety of fuel types that the IESO is unable to categorize due to a lack of information from Local Distribution Companies (LDCs).

Note: Figures may not add to 100% due to rounding.

Ontario's System-Wide Electricity Supply Mix 2018

We Need Your Feedback!

We're Updating our Conditions of Service that describe how we do business with our customers. An update was required due to recent changes within the energy industry.

The updated Conditions of Service can be found at www.innpower.ca.

We are interested in your thoughts on the updates!

Comments can be provided by:
